

Homeowner's Guide to *Smart Watering*

This course is designed to help you understand what's happening in the soil beneath your plants and turf and how to maintain your landscape for health and vigor. Understanding basic information about soil types, plant roots, weather, and irrigation practices can greatly increase your success in proper and beneficial irrigation. The course is taught by Gail Donaldson, regional irrigation expert and horticulturist. Come join us for this great class!

Saturday, April 11
10:30—Noon
Hebron & Josey Library
4220 N. Josey Lane

Cost is free but registration is required. Visit cityofcarrollton.com/water and click on "Events and Classes" to register.

Gail Donaldson is a licensed irrigator and has over 20 years of teaching experience in horticulture. She currently serves on the education committee for the Dallas Arboretum.
